

GLOBAL ADMINISTRATIVE LAW WORKSHEET

1. Go to [this website](#), which lists agencies affiliated with the European Union. Choose one that interests you and answer the following questions. (8 points total)
 - a. What is the European agency that you chose? (1 point)
 - b. Where is it located? (1 point)
 - c. Generally, what is its area of concern? (1 point)
 - d. Choose a specific topic that the agency is working on now, discuss why the agency thinks it is important and what it would like to see happen in the area. (5 points)

2. What agency in the United States handles the same topic as the agency you chose above? (2 points)

3. How has the agency in the United States that you just identified dealt with the same topic you identified in the first question about the EU? (5 points)

4. Choose another country in the world (other than the US or a European Union country). I suggest choosing one with English as its primary language unless you fluently speak another language. List the country you chose and state what agency in that country handles the issue you identified in the first question? How has the country handled this issue? (5 points)

5. Reflect here upon the extent to which the US, the EU and the other country you identified are in agreement (or not) about the issue you are discussing here. Is it an issue that you think world governments and institutions need to agree upon or is it OK if there are differences in how different countries approach the issue? Does one country or another handle it better in your opinion? (10 points – an answer earning full points will be a minimum of two paragraphs in length)
